CPWIFISW2-TX KIT

Want all the benefits of a WiFi smart switch to control your gate but don't have a signal there? The CPWIFISW2-TX KIT is the solution. Simply power up the WiFi switch in your house and wire the receiver into your gate panel. When activated the WiFi switch will transmit to the receiver at a range of up to 100 metres and open the gate. There is also a second output which can be used to trigger something else such as the pedestrian start.

Features:

- Connects to the home WiFi
- Open gate remotely through the App
- Works with Smartlife App
- Manage multiple smart switches and other Tuya/SmartLife compatible smart devices from one App
- Compatible with Amazon Alexa, Google Assistant & Siri (via Shortcuts)
- Set schedules and timers
- Share access with other users permanently or for a set time period
- Remove access to other users instantly
- Up to 100 metre range between WiFi switch and receiver

WiFi Switch specification:

- Power supply: 7-32Vac/dc or 5V Micro-USB
- WiFi standard: 2.4GHz
- Transmission frequency: 868MHz
- Dimensions: 73 x 46 x 30mm

Receiver specification:

- Power supply: 12-24Vac/dc
- Two normally open relay outputs to trigger the gate
- Can also learn other Quantek remote controls
- Dimensions: 89 x 56 x 21mm
