

GSM PRO AUDIO INTERCOM KIT

GSM4KCR AUDIOKITS & ACCESSORIES

New GSM PRO audiokits available in 316 grade stainless steel matt finish.

Introducing new features to the GSM PRO audiokits, further expanding the flexibility that has made Videx's GSM series so popular. They are available as 1 or 2 button kits, and can be expanded up to 50 call buttons using our modular design.

Manufactured in the familiar modular 4000 series range with a new style 316 grade stainless steel matt finish. The GSM audiokits include the new 4903 keypad with blue back-lit buttons, that when connected via the RS485 bus, can be programmed remotely.

With RS485 bus connectivity the GSM kits can be expanded to a networkable access control system (up to a total of 8 devices) which can include both proximity using additional 4850R proximity readers and coded access with additional 4903 keypads.

The kits have all the original features of the previous GSM PRO series audiokits and include additional programming features such as: programming the primary and 3 divert numbers in a single text, programming up to 5 dial to open numbers in a single text, setting up 10 access control and 10 free access timebands, assigning up to 10 access levels, remotely programming up to 400 permanent access codes and 32 temporary codes.

Programming of these additional features can be carried out by either using Videx's new GSM mobile app, by text messages or using the GSM SK PC software.

Key Features Include:

- 4000 series modules in a new 316 grade stainless steel matt finish.
- All modules are compatible with the 4000 series surface and flush back box range and 4000 series rainshields.
- RS485 connectivity.
- Network up to 8 devices (GSM PRO module, 4903 and 4850R) via the RS485 bus connections.
- Program the additional features using Videx's new GSM mobile app, text messages or by the GSM SK PC software.
- Program the primary number and 3 divert numbers in a single text.
- Program multiple dial to open numbers (5 numbers max.) in a single text.
- Program up to 400 permanent access codes.
- Program up to 32 temporary access codes (between 1 and 255 hrs) after which time will automatically be deleted.
- Program up to 10 access control timebands for the dial to open numbers, access codes and proximity fobs/cards.
- Program up to 10 free access timebands.
- Assign up to 10 access levels for the dial to open numbers, access codes and proximity fobs/cards.

Download the Videx GSM app from Google Play or the App Store.

Model	System	Description
GSM4KCR-1	4000 series modular kits	1 button 4K series GSM kit with remotely programmable codelock (matt finish, flush)
GSM4KCR-1S		1 button 4K series GSM kit with remotely programmable codelock (matt finish, surface)
GSM4KCR-2		2 button 4K series GSM kit with remotely programmable codelock (matt finish, flush)
GSM4KCR-2S		2 button 4K series GSM kit with remotely programmable codelock (matt finish, surface)
4810-0/M	4000 series modular	4000 series 0 button GSM PRO module with built-in proximity
4810-1/M		4000 series 1 button GSM PRO module with built-in proximity
4810-2/M		4000 series 2 button GSM PRO module with built-in proximity
4903/M		4000 series remotely programmable codelock module with back-lit keys (up to 400 codes)
4850R/M		4000 series remotely programmable expansion proximity reader module
4843 to 4845		4000 series button modules (3, 4 & 5 buttons)
4843D to 4845D		4000 series button modules (6, 8 & 10 buttons)
4851 to 4853		4000 series flush back boxes (1 - 3 module)
4881 to 4889		4000 series surface back boxes (1 - 9 module)
4871 to 4879		4000 series flush rainshields (1 - 9 module)
4891 to 4899	4000 series surface rainshields (1 - 9 module)	
432	Accessories	GSM antenna (inc. fixings)
HDR-15-12		Slim line 12Vdc, 1.25A power supply
955/T		Videx proximity fob (EM format 125KHz)
955/C		Thin Videx proximity card (EM format 125KHz)
