AWCRADAR

Heavy duty, waterproof RADAR key switch with LED status indicator

Features:

- Very easy to operate, a simple non resistive quarter turn. Much easier than the mechanical locks.
- 2 x waterproof microswitches wired in series to maintain security.
- 316 Stainless steel escutcheon and internal parts.
- Will accept all RADAR keys without no jamming.
- Green LED and sounder when activated.
- Red & blue LED indicator to shown engaged/vacant status and aid colour blind users.
- Designed to be mounted to posts, barriers & architraves
- Works with our WCPCB, which controls the mag lock, lock/open sensor and automatic door operator.

Specification:

- **Housing:** Glass reinforced Nylon, IP55.
- **Fascia:** Antimicrobial, anti-scratch, anti-reflective. Hard coat polyester. Back printed, UV stable, hence graphics will stay clear.
- **Voltage:** 12-24Vdc
- **Dimensions :** 227H x 42W x 45D mm
- Please purchase a [KSWM](#) if an override key switch is required.
