Touch for Help - DDA Alert System

Our hygienic Touch For Help system is simple to install and easy to operate. When someone requires assistance, they touch the sensor and this activates the sounder to alert staff that help is required.

Square

Architrave

Round

Single Gang

Through Glass

Available in Hardwired or 868MHz Radio options (radio receiver capable of accepting 2 doors with different sounders)

Radio equipment has 100000 + operation battery life with LED & sounder on activation

All come pre programmed ready to use

All units except single gang are IP67 rated

Through glass option will not work on low e treated glass

RXTBUZZPSU

Time adjustable Buzzer

Plug in PSU

Double sided fixing Pad

What is SteriTouch®? The touch to help system is manufactured using SteriTouch®, an antimicrobial protection with built-in silver ion technology. They offer protection against a range of bacteria including the Flu Virus, E. coli, MRSA, Salmonella and Legionella, as well as black mould growth, biofilm and fungi.

Unlike surface disinfectants which temporarily eliminate bacteria from surfaces, the built-in protection will never wash off or wear away, protecting it for its lifetime!

The antimicrobial acrylic is non scratch, anti-reflective and non-porous which makes our products easy to clean and maintain, controlling the growth of bacteria and fungi without affecting the colour or transparency. It has been subjected to a range of demanding environmental tests, such as prolonged UV exposure, salt spray and temperature cycling, with no adverse effect on the performance.

Importantly, the SteriTouch® additives are unaffected by cleaning chemicals such as chlorine bleach, disinfectants and alcohol. Even harsh industrial products like MEK (methyl ethyl ketone) do not diminish the antimicrobial properties.

Touch any part of the washable label to activate

2 Year Warranty!

Both radio & hardwired options have a 2 year warranty

Protected against 99.9% bacteria including Listeria and Flu
